

### **Checklist for Your Trade Show Participation**

### **General Information**

#### Our responsibility in sustainability

In the planning and implementation of OutDoor by ISPO, sustainability is given special consideration. Therefore, we would also like to call upon our exhibitors to make their trade fair presentation as climate-neutral, resource-saving and sustainable as possible. We encourage you, for example, to dispense with disposable plastic, to favor local suppliers, to design stands with lower consumption of materials and electricity, to produce only essential or recyclable advertising materials and giveaways, and to travel climate-friendly.

#### Location

Trade Fair Center Messe München Am Messesee 2, 81829 München
