

### ■ Information

We have applied for exhibition protection (exhibition priority) for this trade show. Exhibition priority can be claimed for **utility models, designs and trademarks**. The exhibition priority certificate serves as proof for exhibitors that they have presented their innovation described in the certificate at the trade fair or exhibition and that they thus enjoy the right of exhibition protection. The further significance of the exhibition priority certificate is that it enables the holder to apply for legal protection against unauthorized imitation or copying up to six months after the first day of exhibition by filing a utility model, design or trademark application for an innovation presented for the first time at a trade show or an exhibition. The day the innovation is first displayed at the trade fair is adjudged the date of application. This provides, firstly, sufficient time to formulate the application and to make decisions with respect to the costs involved and, secondly, offers the prospective applicant the advantage of being able to wait long enough to judge on the basis of the sales orders received at the exhibition whether a utility model, design or trademark application is worthwhile.

Because of the special requirements of such a procedure we recommend consulting a patent attorney.

The exhibition priority is valid for the Federal Republic of Germany. The question of whether it is valid abroad and, if so, in which countries, must be clarified from case to case.

The **exhibition priority certificates** will be issued by a patent attorney appointed by us subject to payment of a fee. Exhibitors will be notified in good time where and when the patent attorney can be contacted during the trade show.

The patent attorney will visit exhibitors interested in obtaining an exhibition priority certificate at their stand to establish whether the object for which exhibition priority is being claimed is on display. Since the patent attorney can only attest that day on which he satisfies himself that the object is being exhibited on the exhibitor's stand as being the first day of display, we recommend that the exhibitor get in touch with the patent attorney on the first day he intends to display the object. The patent attorney will provide the exhibitor with information on all questions pertaining to exhibition priority.

In order to ensure that sufficient evidence is available for a justified exhibition priority claim in the event of any subsequent priority dispute, we recommend providing the attorney with documents on the exhibited object (description, brochures, photos, diagram, etc.) made out in triplicate which will then be attached to the exhibition priority certificate. The exhibition priority certificate will be sent to the exhibitor within approximately four weeks.

**Exhibition priority can no longer be claimed for patents in the Federal Republic of Germany.**
