

Inteconn offers a complete service to fulfil manufacturing needs; with 20 years of experience and superior craftsmanship that surpasses expectation in the European and US markets.

Inteconn is proud to have an ethos of providing high-quality products, competitively priced, with a professional service. We can supply you with a catalogue of ready to go products that are tailored to your designs. Our UK office provides flexible terms to oversee every step of product development from your initial design to shipping, to the product in hand. Beyond this, our ambition is unparalleled; we strive to be at the forefront of protecting customers for generations to come with our ever-expanding range from innovative zippers, sports eyewear to recycled accessories, Inteconn's range offers many innovative and recycled products, at Inteconn we aim to enhance your product against your competitors. Inteconn is here for you and we make sure you have a seamless journey with us.

Inteconn offers a wide range of innovative zippers to withstand different industries. Inteconn offers a range of pioneering products such as the TPU Injection Woven Chain Zipper which has proven top performance in the past 50 years, the TPU Injection airtight zipper provides superior performance with waterproof function even under high pressures and lateral tension. The Interchangeable zipper that is suitable for all categories such as Sportswear, outdoor, camping related and the automotive industry. The stainless steel zipper which inherits the unique of strengthened protection and high resistance against severe corrosion. Inteconn has made sure to offer a wide range of innovative products, even with the future that is all about recycling and being sustainable, Inteconn is proud to be a part of a sustainable future by including Recycled Zippers into our Zipper range, the recycled zipper comes from different wasted materials including abandoned fishing nets, recycled bottles and plant-based materials.

Every year, product accessories such as hangers, buckles, toggles are made in their millions and will continue to do so. Future thinking alternatives that are recycled and eco friendly will change the product accessory industry for the better, Inteconn is proud to be part of a positive change for the future in sustainable accessories.

Inteconn not only offers sustainable and innovative accessories, but we also supply sports eyewear, but a host of hazards also affect sports performance, from flying objects to sunny days. High-velocity projectiles in racket sports can cause long-term damage, whilst insects can seriously knock your stride- defend against this with sports eyewear.

Inteconn will attend at ISPO Munich 2021 online.
